Att. All relevant persons

Approval of PY and P2 sleepers from Rail2Rail in Kimberley.

Track Technology have tested, measured and inspected the sleepers manufactured by Rail2Rail with the following results.

PY and P2 sleepers

- Passed the laboratory tests.
- Dimensions were all within the allowable tolerances.
- The test track passed the gauge test.
- The overall appearance of the sleepers was fine.

Based on the results of all the tests and the quality of the sleeper's currently manufactured, Technology management have approved the PY and P2 sleepers from this plant for use on all lines.

Kind regards  
J. S. Maree
